

Weekly Shopping Lists

Each list covers every recipe cooked that week for two people, including the batches that feed the following days and the freezer; leftovers are not listed twice. Cross off what is already in the cupboard. **Every week, as well:** four litres of milk for tea, coffee and porridge; a bag of frozen berries; lemons and limes; fruit for the daily piece (a dozen); a spare tub of low-fat Greek yogurt; sparkling water if you like it. Amounts are rounded up to what you can actually buy; the leftover half of a can or a pepper goes into the next day's salad or soup.

My Own Week

Write your own week from the recipes you liked. The rules: no salt in the cooking or on the table; no stock cubes, soy sauce, processed meat, smoked fish or cheese beyond a teaspoon; no-salt cans and low-sodium bread; fruit or vegetables at every meal and beans, potatoes with skins, yogurt or fish most days for the potassium; fish twice a week, red meat once. Aim for under 1,500 mg of sodium and over 3,500 mg of potassium a day.

The Fridge Card: Keep, Limit, Avoid

Cut out and keep on the fridge. Targets: under 1,500 mg of sodium a day (2,300 at most); 3,500 to 5,000 mg of potassium from food, unless your doctor says otherwise.

Keep (every day)	Limit	Avoid
Fruit and vegetables at every meal, especially bananas, oranges, potatoes with skins, sweet potato, tomatoes, spinach, beetroot	Bread: two slices of a low-sodium loaf (under 120 mg a slice); ordinary bread is 150 to 250 a slice	Salt, in the cooking and on the table; sea salt, rock salt and pink salt are the same thing
Beans, lentils and chickpeas from no-added-salt cans, or dried	Cheese: a teaspoon of parmesan, or a small pot of cottage cheese	Stock cubes, gravy granules, soy sauce, fish sauce, miso, bouillon, seasoning packets
Yogurt, milk, kefir	Eggs: one or two a day (70 mg each)	Bacon, ham, sausages, salami, deli slices, hot dogs, corned beef
Fresh fish twice a week, fresh chicken and turkey, tofu	Lean red meat: once a week, 100 g	Smoked fish, anchovies, canned fish in brine or oil with salt, pickles, olives, capers
Unsalted nuts and seeds, home-popped popcorn, roasted chickpeas	Mustard, ketchup, reduced-salt soy: a teaspoon, counted	Crisps, salted nuts, crackers, pretzels, cheese biscuits
Oats, brown rice, wholewheat pasta, barley, plain flour with sodium-free baking powder	Restaurant meals: once a week, with the Chapter 11 rules	Ready meals, instant noodles, packet soups, canned soups, pizza, takeaways more than once a week
Lemon, lime, vinegar, garlic, ginger, herbs, spices, chilli, black pepper	Alcohol: within the Chapter 7 limits	Effervescent tablets and powders (up to 1,000 mg a dose), sports drinks, vegetable and tomato juices
Water, tea, coffee	Salt substitute (potassium chloride): only if the doctor has said yes	Softened tap water for drinking and cooking, if the softener is on the kitchen tap

The four rules: no salt added; read the label (under 120 mg sodium per 100 g is low; over 400 is high); fruit or vegetables at every meal; the walk.

Call the doctor for a home reading over 180/120 with a headache, chest pain, breathlessness, weakness or a change in vision (emergency department); for readings consistently over 140/90 despite the plan; or for dizziness on standing, which can mean the medicines now need reducing.
