

Weekly Shopping Lists

Each list covers every recipe cooked that week for two people, including the batches that feed the following days and the freezer; leftovers are not listed twice. Cross off what is already in the cupboard. **Every week, as well:** four litres of semi-skimmed milk for the tea, the porridge and the puddings; a large tub of fat-free natural yogurt and a bottle of kefir beyond the ones listed; bananas (a dozen); chamomile and ginger tea bags; a fresh piece of ginger; and a bag of almonds for the mid-morning handful from Week 2. Amounts are rounded up to what you can actually buy.

My Own Week

Write your own week from the recipes you liked and the foods that passed the test. The rules: the biggest meal at midday and a small dinner finished by seven; nothing in the three hours before bed; upright after eating; fat under about 13 g at a main meal; nothing fried; the failed foods out, and the passed ones at lunch; the head of the bed raised; the diary kept.

Symptom Diary and Trigger-Test Sheet

My diagnosis (reflux / GERD / LPR / hiatus hernia / Barrett's): _____. My medicines (the acid tablet, dose and planned end; alginate): _____. Medicines that can worsen reflux, checked with the pharmacist (Chapter 9): _____. Head of the bed raised by _____ cm on _____. Next appointment: _____

The daily score

Each evening, score the day 0 (none), 1 (mild), 2 (moderate) or 3 (severe) for each symptom, and note anything new you ate and the time of your last meal. Start a week before the plan for a baseline.

The trigger tests (Week 3 and after)

One food every second day, an ordinary portion, at lunch (never at dinner), nothing else new that day; score the next twenty-four hours, especially the night. Passed = no change in the score.

Failed = up by 2 or more, or a bad night; out for a month, then test again.

Test	Date	Portion	Score before	Score after (24 h)	Night?	Passed / failed	Retest date
------	------	---------	--------------	--------------------	--------	-----------------	-------------

Coffee (one cup, with milk, after food)							
Tomato (fresh, or a spoon of passata)							
Citrus (half an orange, or lemon on fish)							
Chocolate (two squares, dark, after lunch)							
Mint tea							
Onion and garlic (cooked)							
Alcohol (one small glass, with lunch)							
Mild spice (a pinch of pepper or curry powder)							
Fizzy water							
Raw onion							
A larger evening meal (once, to see)

The Fridge Card: Keep, Limit, Avoid and Test

Cut out and keep on the fridge. The method: the big meal at midday, a small early dinner, nothing in the three hours before bed, upright after eating, the head of the bed raised, low fat, nothing fried, the triggers out for two weeks and then tested one at a time at lunch; the diary decides what stays out.

The ten rules. 1. The biggest meal at midday; dinner small and finished by seven. 2. Nothing in the three hours before bed, not even a glass of milk. 3. Upright after eating: a walk, the washing up, a straight chair; not the armchair, not the bed. 4. The head of the bed raised 15 to 20 cm on blocks or a wedge; sleep on the left side. 5. Fat under about 13 g at a main meal; nothing fried. 6. Small portions, eaten slowly; loose waistbands. 7. Weight off the middle, if there is weight there: the single change with the most evidence. 8. No smoking; alcohol only if it passed the test, with lunch. 9. The trigger list out for two weeks, then one test every second day at lunch, with the diary. 10. The acid tablet taken as prescribed, 30 to 60 minutes before breakfast, and reviewed with the doctor at eight weeks.

Keep (every day)	Limit	Avoid for two weeks, then test	Avoid
Oats, rice, wholemeal bread, potatoes, couscous, barley, pasta with light sauces	Wholemeal and bran in the first two weeks if they bloat you	Coffee (including decaf), strong tea, cola, energy drinks	Large meals; any meal in the three hours before bed
Bananas, melon, papaya, peeled pears, stewed apple, blueberries	Grapes, kiwi, strawberries, raspberries	Tomato, tomato sauce, ketchup	Fried and fatty food, pastry, cream sauces, fatty meat, processed meat
Cooked vegetables: carrot, squash, courgette, green beans, spinach, peas, bok choy, cabbage, broccoli, leek	Raw salad vegetables, radish, raw cabbage	Citrus fruit and juice, pineapple, vinegar, pickles	Smoking
White fish, chicken and turkey without skin, eggs poached or scrambled without fat, prawns, lean pork, tofu, lentils	Oily fish at 80 to 90 g; lean red meat once a week	Chocolate and cocoa; peppermint and spearmint	Chewing gum with mint; tight belts and waistbands; heavy lifting after meals

Semi-skimmed or skimmed milk in small amounts, fat-free yogurt, kefir, cottage cheese, a spoon of parmesan	Reduced-fat cheese, a scrape of butter or spread (Week 2 on), whole milk	Alcohol; carbonated drinks; onion and garlic (then cooked, small); hot spice	Alkaline water and baking soda as a habit, apple cider vinegar shots, supplements sold to cure reflux
Ginger, chamomile, honey, cinnamon, parsley, chives, dill, thyme, turmeric	Fruit juice: a small glass with lunch, if it passed	The raw onion and the pepper, later still	Lying down after lunch; eating in bed; the late-night snack

Call the doctor for difficulty or pain on swallowing, food sticking, weight loss you did not intend, vomiting, black or tarry stools or vomiting blood (emergency: 911 / 999 / 000), anaemia or breathlessness, chest pain (which is a heart question first), symptoms new after 60 or not settling in eight weeks on the plan and the tablet, or a hoarse voice or cough that has lasted more than three weeks.
