

Weekly Shopping Lists

Each list covers every recipe cooked that week for two people, including the batches that feed the following days and the freezer; leftovers are not listed twice. Cross off what is already in the cupboard. **Every week, as well:** four litres of skimmed milk for the tea, the porridge and the puddings; a large tub of fat-free natural yogurt and a bottle of kefir beyond the ones listed; bananas (a dozen); chamomile and ginger tea bags; and a fresh piece of ginger. Amounts are rounded up to what you can actually buy.

The Fridge Card: Keep, Limit, Avoid and Test

Cut out and keep on the fridge. The method: small meals, low fat, nothing fried, the triggers out for two weeks and then tested one at a time; the diary decides what stays out.

The ten rules. 1. Five or six small meals; never a large one. 2. Nothing fried; poach, steam, bake, simmer. 3. Fat under about 12 g at a main meal. 4. Eat slowly, sitting up; stay upright for two to three hours after; dinner three hours before bed. 5. No ibuprofen, naproxen, aspirin or diclofenac unless a doctor has said so; paracetamol (acetaminophen) instead. 6. No alcohol and no smoking while it heals. 7. Water between meals, not in gulps with them. 8. Protein at every meal. 9. The trigger list out for two weeks, then one test every second day with the diary. 10. The acid tablet or the antibiotic course taken exactly as prescribed, to the end.

Keep (every day)	Limit	Avoid for two weeks, then test	Avoid
Oats, rice, white bread and pasta, potatoes, couscous, barley	Wholemeal bread and bran (Week 3 test)	Coffee (including decaf), strong tea, cola, energy drinks	Ibuprofen, naproxen, aspirin, diclofenac and other anti-inflammatory painkillers, unless prescribed
Bananas, melon, papaya, peeled pears, stewed apple, blueberries	Raw fruit with skins; grapes, kiwi, strawberries, raspberries	Tomato, tomato sauce, ketchup	Alcohol until healed; then within the limits in Chapter 7
Cooked soft vegetables: carrot, squash, courgette, green beans, spinach, peas, bok choy, cooked cabbage and broccoli	Raw salad vegetables, raw onion, radish, raw cabbage	Citrus fruit and juice, pineapple, vinegar, pickles	Smoking
White fish, chicken and turkey without skin, eggs poached or scrambled without fat, prawns, lean pork	Salmon and other oily fish at 80 to 90 g; lean red meat once a week	Chilli, black pepper, mustard, curry heat, hot sauce	Deep-fried food, pastry, cream sauces, fatty and processed meats (sausages, bacon, salami)
Skimmed milk, fat-free yogurt, kefir, cottage cheese, a spoon of	Reduced-fat cheese, a little butter or spread (Week 2 on)	Chocolate and cocoa; peppermint and spearmint	Very hot food and drinks; very large meals; eating in the

parmesan			three hours before bed
Lentils, cannellini beans, tofu	Chickpeas, kidney beans, nuts and seeds (small handfuls, chewed well)	Onion and garlic (then cooked soft and small); carbonated drinks	Kelp, 'stomach cleanses', apple cider vinegar shots, baking soda as a habit
Ginger, chamomile, honey, cinnamon, parsley, chives, dill, thyme, turmeric	Fruit juice: a small glass with food, if it passed	Fried breakfast; takeaway pizza and curry; crisps	Supplements sold to 'heal the stomach' without a doctor

Call the doctor for black or tarry stools, vomiting blood or anything like coffee grounds (emergency: 911 / 999 / 000); for difficulty or pain on swallowing, weight loss you did not intend, persistent vomiting, a feeling of fullness after a few mouthfuls that does not pass, anaemia or breathlessness; for pain that wakes you at night or that the plan and the tablets have not changed in four weeks; and, if you are over 55 with new symptoms, for the endoscopy before the diet.
