

Weekly Shopping Lists

Each list covers every recipe cooked that week for two people, including the batches that feed the following days and the freezer; leftovers are not listed twice. Cross off what is already in the cupboard. **Every week, as well:** four litres of milk for tea, coffee and porridge; a bag of frozen berries; fruit for the daily piece (a dozen); a spare tub of low-fat Greek yogurt; sparkling water if you like it. Amounts are rounded up to what you can actually buy; the leftover half of a can or a pepper goes into the next day's salad or soup.

My Own Week

Write your own week from the recipes you liked. The rules: a whole grain at breakfast; beans, lentils or chickpeas most days; fruit or vegetables at every meal, skins on; fish twice a week; red meat once a week at most, 100 g, and no processed meat; nuts and seeds welcome; a glass of water with every meal. Aim for 30 g of fibre a day and count it on the tracker for the first week.

Fibre and Symptom Tracker

My fibre target (Chapter 4): _____ g a day. Attacks so far: _____ (dates: _____).
Last CT or colonoscopy: _____. Medicines that matter (NSAIDs, opioids, steroids):

The fibre count, first two weeks

Count the grams from the recipe pages and the fibre table in Chapter 4 for the first fourteen days; after that you will know the pattern by heart.

Day	Breakfast (g)	Lunch (g)	Dinner (g)	Snacks (g)	Total (g)	Glasses of water	Bowel (1 hard / 2 normal / 3 loose)	Pain or bloating (0 to 3)

Attacks and near-misses

Write every episode: when it started, where the pain was, how long, what you had eaten in the two days before, what else was going on (a new medicine, constipation, illness), and what you did. Patterns show after two or three, and the doctor will want the dates.

Date	Where	Days	Fever?	Food and bowel in the 48 hours before	Other (medicine, illness, stress)	Treated with (rest, fluids, antibiotics, hospital)

The habits, week by week

Tick each day you managed all four: a whole grain at breakfast; beans, lentils or chickpeas at a meal; fruit or vegetables at every meal; a glass of water with every meal and no processed meat.

The Fridge Card: Keep, Limit, Avoid

Cut out and keep on the fridge. This is the PREVENTION card, for the months and years between attacks; in a flare, Chapter 9 governs.

Keep (every day)	Limit	Avoid
Whole grains: oats, wholemeal bread, brown rice, barley, wholewheat pasta, popcorn	Red meat (beef, pork, lamb): once a week, 100 g	Processed meat: bacon, ham, sausages, salami, deli slices, hot dogs
Beans, lentils, chickpeas: a portion most days, built up over two weeks	White bread, white rice, white pasta: the whole-grain version instead where you can	Smoking
Fruit with the skin on: apples, pears, berries, kiwi, oranges, prunes	Alcohol: within the usual limits, none in a flare	Ibuprofen, naproxen, diclofenac and the other NSAIDs, unless your doctor says otherwise (aspirin prescribed for the heart continues)
Vegetables at every meal: greens, roots, peppers, tomatoes, broccoli, cabbage	Cheese: a matchbox a day	Opioid painkillers for anything long-term (ask about alternatives)
Nuts, seeds and popcorn: a small handful a day, chewed well (they do not cause attacks; the studies cleared them)	Sugary drinks and sweets: rarely	Crash diets and very-low-fibre 'cleanses'
Water: a glass with every meal and snack, 1.5 to 2 litres a day	Fibre supplements: fine if food is not enough; psyllium first, with water	Straining: treat constipation early (Chapter 12)
Fish twice a week, poultry, eggs, yogurt, tofu	Coffee and tea: as usual	Sitting all day: a walk after a meal moves the bowel

The four rules: a whole grain at breakfast; beans at a meal; fruit or vegetables at every meal; a glass of water with each. Aim for 30 g of fibre a day.

Call the doctor the same day for pain in the lower left belly with a fever, pain that is getting worse over hours, vomiting, blood in the stool, or a belly that is rigid or swollen; go to the emergency department if the pain is severe or you cannot keep fluids down.
