

The Insomnia Workbook - Printable Worksheets

Every worksheet from the book, one per page. Print as many copies as you need.

The Wind-Down Card

1. Start of the hour: close the day in the notebook (tomorrow's list, the worries and their next steps). Shut it.
2. Lights low. Screens off or dim and dull.
3. Something quiet and repetitive.
4. Ten minutes of the relaxation method, sitting up, not in bed.
5. Bed only when sleepy, and not before the earliest bedtime: _____

The Bad-Night Card

A bad night is a bad night, not a disaster.

I will get up at _____ whatever happens; the drive builds tomorrow.

Nothing needs solving now.

If I am not asleep in about twenty minutes, I get up, keep the light low, and come back when sleepy.

Worksheet 3.1 - My other causes

Possible cause	Applies to me?	What I will do about it before Week 1 (who I will ask)
Sleep apnoea (STOP-BANG score: ____)		
Restless legs		
Pain at night		
Bathroom trips (how many a night: ____)		
Breathlessness or reflux at night		
Medicines that might disturb sleep		
Low mood, anxiety, trauma		
Alcohol in the evening		
Menopause symptoms / thyroid		

Worksheet 4.1 - Where I am starting

Fill in from a week of diary before you begin Week 1 (Week 0), or from memory if you cannot wait.

	Now (Week 0)	After Week 6
Nights a week with trouble sleeping		
Time to fall asleep (typical)		
Time awake in the night (typical)		
Total sleep (typical)		
Time in bed (typical)		
Sleep efficiency (%)		
How I feel in the day (0 = terrible, 10 = fine)		
Worry about sleep (0 = none, 10 = constant)		
Sleeping tablets (nights a week)		

Worksheet 1.1 - My foundations

Rule	My decision	Set up on
Getting-up time (seven days)		
Alarm set (and placed across the room)		
Morning light: how and when		
Caffeine cut-off		
Alcohol rule		
Last-hour routine (what I will do instead of screens)		
Bedroom: dark / quiet / cool - what needs changing		
Daily movement: what, when		
Clock turned away / phone out of the room		
Naps: none (or the Chapter 8 exception)		

Worksheet 1.2 - The sleep diary, Week 1

Day	Into bed	Tried to sleep	Minutes to fall asleep	Times woke	Minutes awake in night	Final waking	Out of bed	Quality 1-5	Naps / caffeine after noon / alcohol / tablet
1									
2									
3									
4									
5									
6									
7									

Worksheet 1.3 - The Week 1 calculation

Add up the seven nights and divide by seven for each.

	Average this week
Time in bed (out of bed minus into bed)	
Minutes to fall asleep	
Minutes awake in the night	
Minutes between final waking and getting up	
Total sleep time (time in bed minus the three lines above)	
Sleep efficiency (total sleep divided by time in bed, x 100)	%

Weekly review

Diary mornings completed (out of 7)	
Got up at the fixed time (out of 7)	
Nap-free days (out of 7)	
Sleep efficiency this week	
The rule I found hardest	
One thing I noticed	

Worksheet 2.1 - My sleep window

Last week's average total sleep time	
My window this week (that number, floor 5 h 30)	
My fixed getting-up time	
Therefore my earliest bedtime	
Full restriction or compression? (if compression: current time in bed minus 30 min = ____)	
What I will do in the evening between "usual bedtime" and "earliest bedtime"	

Worksheet 2.2 - The sleep diary, Week 2

Day	Into bed	Tried to sleep	Minutes to fall asleep	Times woke	Minutes awake in night	Final waking	Out of bed	Quality 1-5	Naps / caffeine / alcohol / tablet
1									
2									
3									
4									
5									
6									
7									

Worksheet 2.3 - The Week 2 calculation and the adjustment

	Average this week
Time in bed	
Total sleep time	
Sleep efficiency	%
Rule applied: widen 15 min / hold / narrow 15 min	
Next week's window and earliest bedtime	

Weekly review

Nights I kept to the window (out of 7)	
Got up at the fixed time (out of 7)	
Nap-free days	
Sleep efficiency	
Daytime sleepiness (0-10) and how I managed it	
The first good night, if it came	

Worksheet 3.1 - The night station

Where I will go when awake (room, chair)	
What I will have there (lamp, blanket, book, drink)	
What I will not have there (phone, television, clock)	
What I will say to myself when I get up ("this is the lesson, not a failure")	
If I physically cannot leave the bed: my alternative	

Worksheet 3.2 - The sleep diary, Week 3 (now with a column for getting up)

Day	Into bed	Minutes to fall asleep	Times woke	Minutes awake	Times I got up	Final waking	Out of bed	Quality 1-5	Notes
1									
2									
3									
4									
5									
6									
7									

Worksheet 3.3 - The Week 3 calculation and the adjustment

	Average this week
Time in bed	
Total sleep time	
Sleep efficiency	%
Rule applied: widen / hold / narrow	
Next week's window and earliest bedtime	

Weekly review

Nights I got up when awake rather than lying there	
Nights I stayed in bed awake anyway (and why)	
Got up at the fixed time (out of 7)	
Sleep efficiency	
How the bed feels now compared with two weeks ago	
One thing to change next week	

Worksheet 4.1 - My wind-down hour

Time (counting back from earliest bedtime)	What I will do
Start of the hour: close the day (notebook)	
Lights	
The quiet thing	
Relaxation method (which one; where I will sit)	
The signal that I am sleepy enough for bed	

Worksheet 4.2 - Relaxation practice log

Day	Daytime practice (method, minutes, tension before/after 0-10)	Evening practice (method, minutes, tension before/after)
1		
2		
3		
4		
5		
6		
7		

Worksheet 4.3 - The sleep diary, Week 4

Day	Into bed	Minutes to fall asleep	Times woke	Minutes awake	Times I got up	Final waking	Out of bed	Quality 1-5	Notes
1									
2									
3									
4									
5									
6									
7									

Worksheet 4.4 - The Week 4 calculation and the adjustment

	Average this week
Time in bed	
Total sleep time	
Sleep efficiency	%
Rule applied: widen / hold / narrow	
Next week's window and earliest bedtime	

Weekly review

Wind-down hours done (out of 7)	
Relaxation practices done (day / evening)	
Sleep efficiency	
Minutes to fall asleep this week vs Week 1	
The method that suits me	
One thing to change next week	

Worksheet 5.1 - The sleep thought record

One a day, about last night.

Situation	Thought (and % belief)	Feeling (0- 10)	Evidence for	Evidence against	More accurate thought (and % belief)	Feeling now

Worksheet 5.2 - My beliefs about sleep

Rate how much you believed each at the start (0 = not at all, 10 = completely) and now.

Belief	Start	Now	The evidence I have gathered against it
I need eight hours			
A bad night ruins the next day			
I should be able to control my sleep			
Insomnia will ruin my health			
I have lost the ability to sleep			
I must catch up on lost sleep			

Worksheet 5.3 - Constructive worry

Early evening, not in bed. Each worry, and the next step.

The worry	The next step I will take, and when

Worksheet 5.4 - The sleep diary, Week 5

Day	Into bed	Minutes to fall asleep	Times woke	Minutes awake	Times I got up	Final waking	Out of bed	Quality 1-5	Notes
1									
2									
3									
4									
5									
6									
7									

Worksheet 5.5 - The Week 5 calculation and the adjustment

	Average this week
Time in bed	
Total sleep time	
Sleep efficiency	%
Rule applied: widen / hold / narrow	
Next week's window and earliest bedtime	

Weekly review

Thought records done	
The belief that has shifted most	
Constructive worry: did the worries stay in the book?	
Sleep efficiency	
Worry about sleep now (0-10) vs Week 0	
One thing to change next week	

Worksheet 6.1 - The sleep diary, Week 6

Day	Into bed	Minutes to fall asleep	Times woke	Minutes awake	Times I got up	Final waking	Out of bed	Quality 1-5	Notes
1									
2									
3									
4									
5									
6									
7									

Worksheet 6.2 - The Week 6 calculation, and the six-week comparison

	Week 0 / Week 1	Week 6
Time in bed		
Minutes to fall asleep		
Minutes awake in the night		
Total sleep time		
Sleep efficiency		
Quality (average 1-5)		
How I feel in the day (0-10)		
Worry about sleep (0-10)		
Sleeping tablets (nights a week)		

Worksheet 6.3 - My sleep plan for the next three months

My getting-up time	
My current window and earliest bedtime	
The extension rule, in my own words	
My wind-down hour	
My relaxation method	
What I will do on a bad night (the card)	
When I will restart the diary	
Who knows about the plan	

Weekly review - and the six-week review

Sleep efficiency	
Window widened to	
The three changes that made the most difference	
The rule I am most likely to let slip, and my plan for it	
What I would tell myself on Day 1	

Worksheet 7.1 - My bad-night card and drift plan

My three sentences for the card	
My getting-up time, whatever the night	
The drift signs I am most prone to	
What I will do when I notice two of them	
Who I will tell	

Worksheet 8.1 - My after-50 adjustments

	Applies?	What I will do
The early clock (sleepy by 9, awake by 4)		
A short early-afternoon nap (only if nights are good)		
Bathroom trips: fluid timing, diuretics timing, doctor		
Pain at night: relief timing, support, the chair rule		
Sleeping tablets or antihistamines: Chapter 9 conversation		
Partner, noise, room, mattress		

Worksheet 9.1 - My tablet plan (with my doctor)

Tablet, dose, how long I have taken it	
Nights a week I take it	
What I want instead (the goal, in plain words)	
The date I will raise it with my doctor (after Week 6)	
The taper plan agreed (steps, interval)	
The anchors I will lean on during the taper	
The person who knows	

Blank sleep diary (one week)

Day	Into bed	Tried to sleep	Minutes to fall asleep	Times woke	Minutes awake	Times I got up	Final waking	Out of bed	Quality 1-5	Notes
1										
2										
3										
4										
5										
6										
7										

Blank weekly calculation

	Average this week
Time in bed	
Minutes to fall asleep	
Minutes awake in the night	
Minutes between final waking and getting up	
Total sleep time	
Sleep efficiency (total sleep / time in bed x 100)	%
Rule applied: widen 15 / hold / narrow 15	
Next week's window and earliest bedtime	

Blank sleep thought record

Situation	Thought (% belief)	Feeling (0-10)	Evidence for	Evidence against	More accurate thought (% belief)	Feeling now

The twelve-week tracker

Tick each week the diary was kept and the efficiency rule applied.

Week	Diary kept	Efficiency %	Window (hours)	Fixed wake time kept (days)	Notes
1					
2					
3					
4					
5					
6					
7					
8					
9					
10					
11					
12					

Print more copies of every diary and worksheet from the link at the front of the book.
