

Weekly Shopping Lists

Each list covers every recipe cooked that week for two people, including the batches that feed the following days and the freezer; leftovers are not listed twice. Cross off what is already in the cupboard. **Every week, as well:** four litres of milk for tea, coffee and porridge; a bag of frozen pitted cherries; a bottle of unsweetened tart cherry juice; fruit for the daily piece (a dozen); a spare tub of low-fat Greek yogurt; sparkling water if you like it. Amounts are rounded up to what you can actually buy; the leftover half of a can or a pepper goes into the next day's salad or soup.

Write every flare: when it started, which joint, how long, what you had eaten and drunk in the two days before, and what else was going on (illness, dehydration, a new medicine, an injury). Patterns show after three or four.

This week: walks _____ weight _____ glasses of water a day _____ alcohol-free days _____ flare days _____

The Fridge Card: Keep, Limit, Avoid

Cut out and keep on the fridge.

Keep (every day)	Limit (small portions, not every day)	Avoid
Water, 2 litres	Chicken, turkey, lean pork, lean beef and lamb: about 100 g, at one meal a day	Liver, kidney, sweetbreads, pate, game
Low-fat milk, yogurt, skyr, cottage cheese, kefir	Salmon, cod, haddock, white fish, canned tuna: 100 g, twice a week	Anchovies, sardines, mackerel, herring, mussels, scallops, fish roe
Eggs	Prawns, crab: once a fortnight, small	Beer, including alcohol-free beer; spirits
Beans, lentils, chickpeas, tofu, soya	Wine: one small glass, not daily, none in a flare	Cola, squash, sweetened drinks, fruit juice, energy drinks
Vegetables of every kind, including spinach, mushrooms, asparagus, cauliflower	Hard cheese: a matchbox	Yeast extract, nutritional yeast, brewer's yeast
Fruit, especially cherries and vitamin C fruit; tart cherry juice unsweetened	Fructose in sweets, syrups, honey: a teaspoon, not a tablespoon	Gravy from meat juices, meat stock cubes, bone broth
Whole grains: oats, wholemeal bread, brown rice, barley, quinoa	Salt: under 6 g a day (most gout comes with high blood pressure)	Crash diets, fasting and very-low-carb diets: they raise urate
Nuts and seeds, unsalted; olive and rapeseed oil		
Coffee and tea		

The three rules: meat or fish at one meal a day, 100 g, the lower-purine kinds. Two litres of water. Nothing from the avoid column, ever, and in a flare, nothing from the limit column either.

The numbers: uric acid under 6 mg/dL (360 micromol/L), under 5 (300) with tophi; check twice a year; the medicine continues through a flare and through the diet.
