The Feeder Chart

What to put out, and who comes for it. Clean the feeder every fortnight, keep water beside it, and hang it away from bushes where a cat can hide.

Food	Who comes for it	Where to put it
Sunflower seeds (black or hearts)	Tits, chickadees, finches, cardinals, nuthatches, sparrows	A hanging tube feeder
Peanuts (unsalted, in a mesh feeder)	Tits, woodpeckers, nuthatches, jays	A mesh feeder; never loose whole nuts in spring, chicks choke
Fat balls and suet	Tits, woodpeckers, starlings, robins, wrens	A cage feeder, out of the sun
Niger seed	Goldfinches, siskins, redpolls	A feeder with tiny holes
Mealworms (dried or live)	Robins, blackbirds, wrens, bluebirds	A dish on a table
Mixed seed	Sparrows, doves, finches, juncos	A table or the ground
Apples and soft fruit	Blackbirds, thrushes, waxwings, starlings	On the lawn or a table
Sugar water (4 parts water, 1 part sugar, no colouring)	Hummingbirds	A hummingbird feeder, cleaned twice a week
Oats, peas, sweetcorn, lettuce	Ducks, geese and swans at the pond	Thrown on the water; never bread
A dish of water	Everybody	Shallow, with a stone in it, changed daily

The Quiz Sheet

	Question	Answer
