

The Air Fryer Cookbook for Seniors - Printable Charts

From *The Air Fryer Cookbook for Seniors* by Laura Bennett (Oro Enigma Publishing). Print for the fridge door.

The Times and Temperatures Chart

For a preheated basket, a single layer, turned or shaken halfway. Internal temperatures where they matter. Check early the first time.

Food	Temperature	Time	Done when
Chicken thighs, boneless skinless	190C / 375F	18 to 20 min	75C / 165F
Chicken thighs, bone-in	190C / 375F	22 to 25 min	75C / 165F at the bone
Chicken breast (150 g)	190C / 375F	14 to 16 min	74C / 165F; rest 5
Chicken drumsticks	190C / 375F	20 to 22 min	75C / 165F
Chicken wings	200C / 400F	22 to 25 min	crisp, 75C / 165F
Whole small chicken (1.3 kg)	180C / 350F	55 to 65 min	75C / 165F in the thigh
Turkey breast steak	190C / 375F	10 to 12 min	74C / 165F
Meatballs (turkey or beef)	190C / 375F	12 to 14 min	74C / 165F
Burgers (2 cm)	190C / 375F	12 to 14 min	71C / 160F
Sausages	190C / 375F	12 to 14 min	75C / 165F
Bacon	200C / 400F	8 to 10 min	crisp
Pork chop (2 cm)	200C / 400F	12 to 14 min	63C / 145F; rest 3
Pork tenderloin (400 g)	200C / 400F	18 to 22 min	63C / 145F; rest 5
Steak (2 cm)	200C / 400F	8 / 10 / 12 min	medium-rare / medium / well; rest 5
Lamb chops	200C / 400F	10 to 12 min	pink at 10; rest 3
Salmon fillet	200C / 400F	8 to 10 min	flakes; 12 to 14 from frozen
White fish fillet (cod, haddock)	200C / 400F	10 to 12 min	flakes
Prawns, raw	200C / 400F	6 to 8 min	pink and opaque
Tuna steak (2 cm)	200C / 400F	6 to 8 min	6 for pink

Mackerel fillet	200C / 400F	8 min	skin blistered
Fish cakes, salmon burgers	190 to 200C / 375 to 400F	10 to 12 min	golden, hot through
Breaded fish from frozen	200C / 400F	12 to 14 min	crisp, hot through
Potato wedges	200C / 400F	20 to 25 min	golden, soft inside
Jacket potato (medium)	200C / 400F	40 to 45 min	a knife slides in
Sweet potato fries	200C / 400F	15 to 18 min	crisp edges
Root vegetables, cubed	200C / 400F	18 to 20 min	caramelised edges
Broccoli, cauliflower florets	190C / 375F	8 to 10 min	crisp edges
Asparagus, green beans	200C / 400F	6 to 8 min	tender
Peppers, onions, courgette	200C / 400F	12 min	soft, catching
Mushrooms	200C / 400F	8 to 10 min	golden
Cabbage wedges	190C / 375F	12 to 15 min	charred edges
Corn on the cob	200C / 400F	10 to 12 min	kernels catching
Chickpeas (canned, dried off)	200C / 400F	15 min	crisp
Tofu, cubed	200C / 400F	14 to 16 min	golden
Halloumi	200C / 400F	8 min	golden
Eggs in ramekins	180C / 350F	8 to 10 min	whites set
Eggs in the shell	130C / 270F	14 to 16 min	hard; 12 soft
Mini frittatas, quiches, muffins	170C / 340F	12 to 14 min	set, golden
Cookies	170C / 340F	8 to 10 min	golden edges
Mini loaf (banana bread)	160C / 320F	30 to 35 min	skewer clean
Crumble in ramekins	170C / 340F	14 to 16 min	bubbling
Baked apples, pears, peaches	180 to 190C / 350 to 375F	8 to 18 min	soft
Granola, nuts	160C / 320F	6 to 10 min	golden, stirred often
Toast, pitta chips, tortilla	180C / 350F	3 to 6 min	crisp

crisps			
Reheating (most things)	160 to 180C / 320 to 350F	3 to 8 min	75C / 165F in the middle

R4 - Frozen Foods, Straight from the Freezer: The Chart

Serves 1 | varies | **Air fryer: 180 to 200C / 350 to 400F, 8 to 25 minutes**

The freezer and the air fryer are made for each other: no thawing, and most things cook in the oven time less a fifth.

Ingredients

- Breaded fish fillets: 200C / 400F, 12 to 14 minutes
- Fish fingers: 200C / 400F, 9 to 11 minutes
- Frozen salmon fillet: 200C / 400F, 12 to 14 minutes
- Frozen chicken breast: 180C / 350F, 20 to 25 minutes, to 74C / 165F
- Oven chips: 200C / 400F, 15 to 18 minutes, shaking twice
- Frozen vegetables (broccoli, green beans): 190C / 375F, 8 to 10 minutes with a teaspoon of oil
- Frozen peas: not the air fryer; they fly and dry
- Frozen meatballs: 190C / 375F, 12 to 14 minutes
- Frozen sausages: 190C / 375F, 14 to 16 minutes
- Frozen fruit for a crumble: as the recipe, no thawing
- 1 fillet frozen fish fillets, breaded, the example for the nutrition line

Method

1. Single layer, a little oil on anything not already coated, shake halfway, and check the middle with a thermometer or a knife.
2. Packet instructions for an oven: the same temperature, and start checking at four-fifths of the time.

Tip: Do not thaw and refreeze; cook from frozen, eat, and freeze only what was never thawed.

Per serving (approx.): 230 kcal | protein 12 g | fibre 1.0 g | carbohydrate 20 g | saturated fat 1.5 g | sodium 400 mg

R3 - Reheating Leftovers: The Rules

Serves 1 | 5 min | Air fryer: 160 to 180C / 320 to 350F, 3 to 8 minutes

The air fryer reheats better than a microwave (crisp things stay crisp) and needs lower temperatures than it cooks at: the chart for the fridge door.

Ingredients

- Pizza slice: 170C / 340F, 3 to 4 minutes
- Roast chicken, sausages, meatballs: 170C / 340F, 5 to 6 minutes (75C / 165F inside)
- Fish, fish cakes: 160C / 320F, 4 to 5 minutes
- Roast potatoes, wedges, fries: 190C / 375F, 4 to 6 minutes
- Roasted vegetables: 180C / 350F, 3 to 4 minutes
- Rice, pasta, stews: not the air fryer; the microwave or a pan, piping hot throughout
- Bread and pastries: 160C / 320F, 2 to 3 minutes
- From frozen (cooked food): add 4 to 6 minutes, and check the middle
- 1 slice wholemeal bread, the example: a slice reheated for the nutrition line

Method

1. Preheat two minutes; food in a single layer; the times above; check the middle is piping hot (75C / 165F) before eating.
2. Reheat once only; anything reheated is eaten that day.

Tip: A splash of water in the drawer, or a loose foil tent, keeps sliced meat from drying.

Per serving (approx.): 91 kcal | protein 4 g | fibre 2.2 g | carbohydrate 15 g | saturated fat 0.3 g | sodium 160 mg

Safe Temperatures and Food Safety

Food	Safe internal temperature	Check
Chicken, turkey (all cuts, mince, whole)	74 to 75C / 165F	The thickest part, not touching bone
Pork chops, tenderloin, roasts	63C / 145F, then rest 3 minutes	The centre
Sausages, minced meat, burgers, meatballs, meatloaf	71C / 160F (75C / 165F for poultry mince)	The centre of the thickest one
Beef and lamb steaks and chops (whole muscle)	52C / 125F rare; 57C / 135F medium-rare; 63C / 145F medium; 71C / 160F well	The centre; rest 3 to 5 minutes
Fish	63C / 145F, or flakes easily and is opaque	The thickest part
Prawns	Pink and opaque throughout	By eye
Egg dishes	71C / 160F, or set with no liquid egg	The centre
Reheated food	75C / 165F throughout	The centre

The rules: a probe thermometer costs little and removes the guessing; wash it between the raw and the cooked. Raw meat and fish on the bottom shelf of the fridge, used within two days of buying or frozen. Hands, board and knife washed after raw meat. Cooked food cooled within an hour and refrigerated; reheated once, piping hot; leftovers eaten within three days. Frozen meat cooked from frozen only where the recipe or the packet says (the fish, the breaded things, the meatballs); a chicken breast from frozen takes 20 to 25 minutes and must reach 74C / 165F, so a thermometer, or thaw it in the fridge overnight. Anyone over sixty-five, and anyone with a weakened immune system, is more vulnerable to food poisoning, which is why the temperatures in this book are the cautious ones.

The conversion card

Your recipe says	In the air fryer
Oven, any temperature	20C / 25F lower; check at four-fifths of the time
Grill	The same temperature; two-thirds of the time
Deep fry	200C / 400F; a teaspoon of oil; the oven time for the dish; turn once
Packet, oven instructions	The same temperature; check at four-fifths of the time
Packet, air fryer instructions	Follow them; they were tested
Serves four	Halve everything; the time stays the same
Double quantity	Two batches, not one crowded basket

The six temperatures

Setting	For
130C / 270F	Eggs in the shell
160C / 320F	Nuts, granola, mini loaves, delicate bakes
170C / 340F	Cookies, muffins, frittatas, quiches, crumbles
180C / 350F	Baked eggs, fruit, toast, crisps, reheating
190C / 375F	Chicken, burgers, sausages, meatballs, vegetables that must cook through
200C / 400F	Fish, prawns, steak, chops, wedges, anything that should crisp fast
